Health-Related Social Needs Screening Tool**

What is a
Community Health Worker?

“A community health worker is a **frontline public health worker** who is a trusted member of and/or has an unusually close understanding of the community served.”

“A community health worker also builds individual and community capacity by **increasing health knowledge and self-sufficiency** through a range of activities such as outreach, community education, informal counseling, social support and advocacy.”

-American Public Health Association
